Light Jacket™ Description

The Light Jacket™ Attachable Light for Electrosurgical Pencil is offered as a sterile, one-time use disposable medical device for providing enhanced illumination of the surgical site when attached to an electrosurgical pencil.

Intended Use

The device is a self-powered light source attachment to electrosurgical pencils and is intended to provide visible illumination of the surgical field.
Light Jacket™ Directions For Use

Set-Up:

1. Using aseptic technique, open package and transfer Light Jacket™ onto sterile field.

2. Hold Light Jacket™ so light source is positioned distally.

3. Insert electrosurgical pencil into proximal opening of Light Jacket™. Slide Light Jacket™ up onto pencil until secure.

4. Light Jacket™ should illuminate once locked onto pencil.
**Post Surgery:**

1. To remove Light Jacket™ from electrosurgical pencil, depress the release flange while gripping housing of Light Jacket™.
2. Slide Light Jacket™ off electrosurgical pencil.
3. Dispose of used Light Jacket™ in proper manner and in accordance with local laws.

---

**WARNINGS**

- Do not insert finger(s) into Light Jacket™.
- Do not shine Light Jacket™ into eyes. May cause temporary blindness.
- Do not install or remove Light Jacket™ while over an open surgical cavity.
- Do not leave Light Jacket™ in a patient cavity.
- Fire / Explosion / Burn Hazard. Do not crush, disassemble, incinerate, or heat batteries above 100°C/212°F.
- The Light Jacket™ contains non-rechargeable batteries. Do not recharge batteries. Dispose of batteries in accordance with local laws.

---

**RECOMMENDATIONS**

- Users should add Light Jacket™ to the surgical count.
- Light Jacket™ is tested for compatibility with Covidien Edge™ / Valleylab™ Button Switch Pencil and Covidien Edge™ / Valleylab™ Rocker Switch Pencil.
- Light Jacket™ should be attached and removed no more than five times.
- Light Jacket™ should be used to enhance lighting not as only source of light.
